Education

Bentley University

Data Analytics and Business Administration Major GPA: 4.0

Relevant Coursework: Web Development and Programming, Data and Information Management, Programming with Python, Introduction to A.I.

Waltham, Massachusetts

August 2025-June 2029

Experience

Best Buy

Watertown, Massachusetts

Admin / Sales and Warehouse Associate

August 2025 – Present

- Review Power BI dashboards tracking store-wide sales and warehouse performance, identifying trends such as shrinkage and closing rate used by management to guide operational decisions.
- Collect daily register totals of \$3,000-\$15,000 each morning, counting and verifying cash from all point-of-sale terminals and preparing accurate financial statements and bank deposit documentation before submission.
- Handle end-to-end daily cash management, including sales totals, resolving and researching discrepancies, and completing formal deposit forms for store finances.

Bentley A.I. Society

Waltham, Massachusetts

Member

August 2026 – Present

- Attend society meetings to explore emerging AI tools and their applications across academic and professional settings.
- Gain hands-on experience using AI platforms including Claude, Microsoft Copilot, and Perplexity to support research, writing, and problem-solving tasks.

Projects

NBA Trade Impact Analysis — Python, SQL, Power BI, DAX | [\[GitHub link\]](#)

- Built an end-to-end analytics pipeline in Python pulling 4 seasons of real NBA player and team statistics (~40 API calls) from the NBA Stats API, with retry/backoff logic, response caching, and data-integrity checks to handle rate limiting and inconsistent data.
- Built a 3-page Power BI dashboard using DAX (CALCULATE, SWITCH, disconnected parameter tables) to compare player performance, verify a league-ranking claim against the underlying data, and model a projected shift in team shot distribution under a roster change.
- Diagnosed a Power BI data-model bug caused by automatic relationship detection by isolating each measure individually, then resolved it and documented the fix.

Leadership & Activities

Watertown High School

Watertown, Massachusetts

Black Student Union - President

September 2024 – June 2025

- Led 25 members as President of the Black Student Union, organizing meetings, events, handling budgets, and initiatives that strengthened community engagement within the school.

Skills & Certifications

Technical: Python, SQL, Java, HTML, Power BI, and DAX

Certifications: A.I. Essentials Specialization (Google), Bloomberg Market Concepts (Bloomberg)

Language: English, Spanish, Portuguese
